

Morphology Matters!

Join JPW and ESC 15 for a day with William Van Cleave!

Morphology Matters~

William Van Cleave will explore morphology as a tool for building vocabulary in students of all ages. He will frame the day with best-practice research, highlighting the most effective teaching practices to help students make vocabulary gains. He will model problem-solving approaches designed to help students develop morphological awareness, understand how to tackle challenging words and bring enjoyment to learning vocabulary.
